

THE DALAI LAMA

MESSAGE

I would like to congratulate BODHI on your 30 years of service to humanity. I commend your humanitarian and educational work with less privileged communities in India and Bangladesh.

As a Tibetan, I am grateful for your projects to benefit the Tibetan people, both in Tibet and in the exile community.

The two co-founders, Susan Woldenberg (who is no more now) and Colin Butler, have taken the principles of altruism in undertaking their activities. I also very much appreciate the dedication of the work of BODHI's volunteers and partners.

I wish your organization continued success in your work, especially for the well being of poor and needy members of our society.

With my prayers and good wishes,

7 June 2019
